

CORRUGATED WEEK 2018 Again a successful participation for the Corrugated Board Converting division

Keith Reiter (K.B. Reiter, LLC), Benjamin Holke (BAHMÜLLER Germany),
Andy Reissmann (Reissco)

This year the Corrugated Week took place in Indianapolis, USA between September 24 – 27, 2018. BAHMUELLER was again represented with an own booth. The co-produced convention organized by the corrugated industry organization TAPPI and AICC was an important and successful event for the BAHMUELLER Corrugated Board Converting division. We had the possibility to discuss a lot of new potential investment projects with our customers from US. BAHMUELLER looks very positive into the future and will attend the show again next year.

Thanks to all our customers for visiting us on the Corrugated Week 2018!
